Report of the Forestry Committee

Your committee is pleased to report that the Town is getting some financial returns from our forest this year.

About 27 cords of wood have been cut from the school lot this year and delivered to the Mountain and Ridge Schools at a saving of over $3.00 per cord from what it would have cost if it had been purchased. This means an improvement of the lot as well as a saving to the Town.

The bushes have been cut and removed from the Town House lot, giving the young pines a better chance to grow and improve the appearance of the lot.

No pines have been set out this year, but some are missing on all the lots and would recommend that these be replaced during the coming year.

Report of Superintendent of Schools

To the Citizens of Northwood:

At the last district meeting, a special appropriation was voted for the purpose of remodeling the Ridge Schoolhouse. This project has been completed, with the result that this building now has three modern classrooms, one large room that can be used for assembly or practical arts, a convenient library, and a stock room. Indoor chemical toilets on both floors have replaced the old unsatisfactory arrangements. Parents, teachers, and pupils have expressed their delight at the cheerful surroundings provided. The district may well feel gratified that all three buildings now in use conform to approved specifications. The remodeling of the Ridge building is also making possible a considerable saving in fuel.

Only one change in elementary teachers has taken place, Miss Ruth B. Brown of Strafford, Keene Normal School, '30, coming to take charge of grades I-III at the Ridge school. At the dental clinic held last March, 69 persons were treated, with a total of 216 operations. Hot lunches are being served at the Mountain School this year for the first time, and are proving a great success, with the co-operation of pupils, teacher, and the district.

It is worthy of note that every one of the twelve graduates of the eighth grade in Northwood last June entered high school, either at Coe's Academy or elsewhere. Seven of the eleven graduates of Coe's Academy have already entered post-secondary institutions

for further training. This shows good guidance on the part of parents and teachers, and a fine ambition on the part of the young people.

Our eighth grade teachers have made commendable progress in the direction of so-called "vitalized graduations," in which is demonstrated the bearing of school training on citizenship and life. Our school programs have been enriched in recent years along the lines of health, music, and self-expression through the arts; nevertheless it is a striking fact that more minutes a year are spent on Reading, 'Riting, and 'Rithmetic in the schools than were spent on the same three R's one or two generations ago.

Respectfully submitted,

CHESTER W. DOE,

Superintendent of Schools.

February 2, 1931.
